VRAJ NIDHI SAMANVAY (VNS) HOSTEL

WELL MAINTAINED SERVICE ROOMS

INTRODUCTION :

We have rightly addressed ourselves as for the people by the people. Feasibility of the project lies in the formal principle of the fact that it centered on the student population which is present / will be created due to prominent emergence of Self Financed institutions in the proposed area. Existing infrastructure of the college hostels is not enough to support students coming out from nearby & distant cities to Vadodara for pursuing their Educational goals.

Rapid industrial development gives rise to suburban industrial pockets and estates better known here in the state of Gujarat. Migrant population commutes here on a daily basis to fulfill their needs of employment. Fact remains that as of now there is a huge void in the requirement vis-à-vis supply of infrastructure related to habitation, availability of Hygienic food & beverage & Eco friendly environment.

Have we been able to manage all of this under One roof ? Well the answer is yes !

Vraj Nidhi Samanvay is an ideal location for stay which has all of the above mentioned amenities for its Patrons. As a matter of fact for the students we also have an access control and attendance system which is reported as per the request of their parents.

INFRASTRUCTURE FACILITIES : ABOUT PREMISES
